KEY FEATURES

- NDAA Compliant
- Tool-Less Modular Design
- Custom High-Discharge Battery System
- SWARM Capable
- Onboard Terminal Guidance / Fire & Forget
- 5.5:1 thrust-to-weight
*on 10x7 props

DESIGNED FOR

- Counter-UAS Operations
- High-Speed Intercept Missions
- Rapid Deployment
- Attritable Mission Sets
- GPS-Denied & Contested-RF Environments

● STATUS **CURRENTLY UNDERGOING ACTIVE FLIGHT TESTING**

CONTESTED-ENVIRONMENT OPERATIONS

GPS-DENIED NAVIGATION

Terrestrial beacon positioning provides a ground-based navigation reference with no reliance on GPS or any satellite signal — built on an operationally fielded positioning system.

EW- & JAM-RESISTANT C2

Wideband command-and-control data link with automatic jamming and interference detection, frequency-hopping to clean spectrum in contested RF environments.
